## Section II – Funding and Financial Administration

### 1. Funding Available

Funds projected for contracting for Jobs for Michigan's Graduates is \$285,000. Projected funds are subject to change. All programs and services to be provided under this grant will be funded by federal, state, Youth Solutions and other funding that comes available. Agencies and organizations will be expected to participate by contributing basic management and supervisory services to the maximum extent feasible. Once a program implementation contract is issued, full responsibility for administration of the program, activities and expenditures of funds becomes that of the service provider, according to the Federal Regulations and other policies or regulations established by the U.S. Department of Labor, the State of Michigan and GST Michigan Works! (GSTMW). Each organization will be liable for any disallowed or illegal expenditures of funds or program operations conducted under its contract. Disallowed or illegal costs will be subject to repayment to GSTMW by the service provider with non-federal funds. Full payment for contracts will be dependent on achievement of performance requirements.

### 2. Allowable Costs

Only costs directly related to the operation of the program and properly supported with backup data and records will be allowable charges to the program. For shared time or facilities arrangements where staff wages, utilities, supplies, etc., are to be funded by more than one source, a cost allocation plan must be maintained. Cost allocations of personnel and other expenses must be justifiable as stated in 2 CFR 200.

### 3. Administration

The contract will be on a cost reimbursement basis with a hold-back provision based on performance. Payment for any contract awarded as a result of this RFP will be made monthly subject to the receipt and verification of the subcontractor's request for payment. Reductions of the budget level and/or expenditures may be considered during the contract if a service provider fails to meet expenditure and/or outcome goals. Should a subcontractor fail to meet performance objectives for GSTMW programs, up to fifteen percent (15%), excluding payment to participants, of the total contract may be withheld. A de-obligation/re-obligation procedure will be included in all contracts which result from this RFP. **All providers of services funded by GSTMW must meet or exceed all performance and customer service standards.**

### 4. Accounting Records

All awarded funds are from federal and state sources. Each contractor must thereby maintain acceptable, accommodating accounting records. An adequate system of managing funds and for keeping back-up data to support expenditures for late audit purposes, is the full responsibility of each contractor. No organization will be contracted to deliver funded services or activities unless the organization or agency can provide GSTMW with an acceptable accounting manual, or a statement from a Certified Public Accountant (CPA), that its accounting system meets generally accepted standards of accounting or has had its accounting system reviewed and approved by GSTMW.

### 5. Audit Provisions

Contractors receiving federal/state funds must, under certain circumstances, arrange to pay for audits of their organizations and programs. Therefore, it is important that each contractor (1) determine whether it must audit its organization and programs, and (2) provide sufficient funds in its budget if it must conduct audits. The guidelines described below should enable each contractor to determine its audit responsibilities and provide for audit costs in its budget if necessary. Contractors who are non-profit corporations are required to have an audit completed in accordance with 2 CFR part 200.

Private-for-profit commercial organizations which receive federal assistance of \$25,000 or more annually shall be audited in accordance with Section 627.480 (a)(3) of the regulations. Talent Investment Agency/Workforce Development Agency (TIA/WDA) interprets this new section of the regulations to require that such organizations have an annual financial and compliance audit with an internal control review either: (1) performed on a program-specific basis in accordance with generally accepted government auditing standards, or (2) which includes federal funds within the scope of their organization wide audit. Private-for-profit commercial organizations shall review 2 CFR part 200 for guidance on how the audit may be structured.

## Section III – Reference Material

### A. Michigan Works System

#### 1. Demand Driven Workforce System

A demand driven workforce development system identifies the employer as the primary customer, realizing the extent to which we meet employers' needs is the extent to which we provide the best help to job seekers. The purpose of a demand driven workforce development system is to contribute to the state's economic vitality through the provision of workforce services that foster talent development and connections between employers and employees. Employers create the "pull" based on the demand (needs) they have. That demand is then introduced into the system creating a "pull" on the supply of job seekers that could meet the employers' needs.

#### 2. Michigan's Industry Cluster Approach

(MICA) focuses on aligning efforts – initiatives, programs, and funding - around priority clusters for a demand driven workforce system. Through extensive labor market research, the state TIA/WDA has initially identified five priority clusters including Agriculture, Energy, Healthcare, Information Technology and Advanced Manufacturing, and is driving workforce development efforts toward meeting the skills needs within these clusters. This approach is in partnership with employers, the Michigan Works! system, state and local economic development entities, education and training providers and statewide trade associations.

#### 3. Talent Pipeline and Sector Strategies

GST Michigan Works! Sector Strategy is an inclusive, systems approach to talent attraction, development and retention. Designed to draw on the strength of our local employer champions as leaders in the workforce system, this strategy will set a progressive pace for the agency, improving overall responsiveness in an evolving business landscape.

GST Michigan Works! Sector Strategy focuses on eight (8) primary industry clusters: Advanced Manufacturing, Healthcare, Construction, Agriculture, Transportation & Logistics, Information Technology, Energy and the Business & Municipal sectors. The agency utilizes a combination of methodologies to provide a customized talent and business service experience. One such method includes Talent Pipeline Management (TPM), which uses supply chain principles to call on business and public policy leaders to transform education and workforce systems to be employer-led and demand driven. GST Michigan Works! has prioritized training staff to become certified TPM Practitioners, alongside state and local leaders, business associations, employers, and economic development agencies, to drive partnerships with their education and training providers based on need.

Primary goals of GST Michigan Works! Sector Strategy:

- Meet the talent needs of Michigan businesses, improving their ability to compete within the marketplace.
- Obtain clear signaling from industry leaders concerning existing, new and emerging occupations.
- Provide better support for career seekers in improving their range of employment-related skills, improving their ability to compete for high quality employment opportunities.
- Advance training opportunities through business lead signaling to providers, working tactically to support progressive implementation to achieve improved training outcomes.
- Develop an employer-driven culture focused on crafting workforce solutions tailored to specific industries within our region.

**4. Workforce Innovation and Opportunity Act (WIOA)**

WIOA was signed into law on July 22, 2014. WIOA is designed to help job seekers access employment, education, training and support services to succeed in the labor market and to match employers with the skilled workers they need to compete in the global economy. Congress passed the Act by a wide bipartisan majority; it is the first legislative reform of the public workforce system in more than 15 years. Every year the key programs that form the pillars of WIOA help tens of millions of job seekers and workers to connect to good jobs and acquire the skills and credentials needed to obtain them.

**5. Michigan Works! System**

The Workforce Innovation and Opportunity Act provides a framework for a comprehensive and integrated workforce delivery strategy for “One-Stop” employment and training services. It is only one component of a multi-faceted, statewide workforce structure in Michigan known as the Michigan Works! System.

The TIA/WDA is the lead agency in the implementation of the statewide Michigan Works! System. GSTMW is the lead agency for the implementation of the Michigan Works! System for the six-county area, under the direction of the GST Local Elected Officials (LEO) Board and the Workforce Development Board (WDB). All program providers will identify services and staff funded by GSTMW with the GSTMW brand.

The goal of the Michigan Works! System is to provide quality services for our customers at every entry point. Co-location, integrated services and customer focus are priorities of this system. The focus of GSTMW is to provide information and resources to enable job seekers and employer customers to achieve economic security. Services from the state’s major workforce development programs are accessible in a seamless manner with a core set of services that are available free of charge to all that seek them.

The Michigan Works! System is guided by the following principles

- Demand driven focus for services;
- Responsive business services for employers;
- Market awareness through private sector leadership;
- Integrated service delivery structure;
- Maximum use of resources through co-location and shared operating costs; and,
- Accountability measured by results.

**6. System Programs and Partners**

In addition, WIOA assistance will be provided to employers seeking help in recruiting a workforce. GSTMW reserves the right to modify or add to this request for quotation and information if TIA/WDA recommends such modification and/or addition to the RFP documents. - Insurance certification

### **4. Equipment, Furniture and Materials**

All policies and guidelines as related to procurement and equipment inventory as specified by GSTMW must be followed. Any non-expendable items which are purchased outright with funds from GSTMW will remain the property of GSTMW and may not be altered, moved or disposed of without advance, written permission from GSTMW.

The Proposer must assure that, during the time period of the proposed program, no individuals who are members of the immediate family of any TIA/WDA funded staff positions or governing board of the organization, will be enrolled as program participants in the offered program. This nepotism clause also holds for an individual related to persons in an administrative capacity for GSTMW or for the GSTMW governing boards.

## **7. Prevention of Fraud and Program Abuse**

To insure the integrity of WIOA and other workforce programs, special efforts are necessary to prevent fraud and other program abuses. Fraud includes deceitful practices and intentional misconduct, such as willful misrepresentation in accounting for the use of program funds. "Abuse" is a general term that encompasses improper conduct which may not be fraudulent in nature. Possible problem areas could include the following: conflict of interest, kickbacks, commingling of funds, charging fees to participants, nepotism, child labor, political patronage, political activities, sectarian activities, unionization and anti-unionization activities/work stoppages and maintenance of effort. Proposals which are found to violate the abuse standards will not be funded. Proposers who receive contracts will be required to report immediately any violations in these areas or in problem areas, immediately or as requested by GSTMW.

## **8. Reporting**

Upon approval of any program or activity for funding under GSTMW grants, the agency or organization administering that program will be subject to an extensive set of reporting requirements as developed by GSTMW and required by the Management Information System (MIS) developed by the State of Michigan. These reports will be submitted as required by GSTMW to carry out the required schedule of reporting to the State of Michigan and to carry out monitoring and evaluation of programs as mandated by TIA/WDA program regulations. Training on completion of forms, as well as state and federal regulations will be facilitated by GSTMW.

## **9. Monitoring**

GSTMW will monitor, audit and evaluate funded programs and activities throughout the funding period. Subcontractors must allow federal, state, and GSTMW staff and its representatives access to all files and records relating directly to the program, participant case files, accounting files and records, and to any related files and records associated with proper accounting of such funds and participants. Should GSTMW be prohibited from monitoring, auditing and evaluating such activities, no reimbursement will be made for costs incurred during time periods when such monitoring was prohibited.

- C. Contract funds may be suspended or terminated at any time:
  - 1. Due to lack of funds or changes in appropriation; and
  - 2. If the Contractor refuses to accept any additional or revised conditions mandated by the GSTMW in accordance with conditions set by the WDB, TIA/WDA, or the USDOL; and,

GSTMW may terminate this contract for cause if Contractor appears on the register maintained by the TIA/WDA pursuant to Section 2 of Michigan Public Act No. 278 of 1980 (MCL 423.322) of employers who have been found in contempt of court by a federal court of appeals on not less than three (3) occasions involving different violations during the preceding seven (7) years for failure to correct an unfair labor practice, as prohibited by Section 8 of the National Labor Relations Act, 29 USC 158.

## Section IV - Background

On July 16, 2015, the State of Michigan issued Policy 15-12 regarding Procurement. This policy establishes TIA/WDA requirements and highlights federal requirements for procurements. The information provided in this policy issuance is intended to aid grantees and subgrantees in administering TIA/WDA funded formula grants and, as applicable, other TIA/WDA grants. This policy governs procurement of programs and administrative services through GSTMW.

Competitive proposals are used when there is more than one prospective bidder, the lowest price is not necessarily the determining factor for the award, and either a fixed price or cost reimbursement agreement will be awarded. The competitive proposal is appropriate when evaluation factors focus on approach, program design and outcomes, innovation, coordination and experience, in addition to price. [State procurement policy page 6] [2 CFR Part 200.320(d)]

### A. Previous Program Models

Proposed WIOA regulations and state regulations allow for a variety of options in program delivery. Some MWA's have opted to provide all services "in-house." Other MWA's have chosen to procure service providers for all programs. Many options are available within this continuum of service delivery plans. GSTMW has chosen a "mixed model." A variety of other factors come into play in selecting program delivery models:

1. Separate programs or comprehensive program model: multiple programs may be combined into one RFP solicitation. For example, the RFP could include both WIOA programs and PATH in one solicitation or they could be bid separately.
2. Merit-Based staff: Some Wagner Peyser services and Trade Adjustment Assistance services are required to be delivered by merit-based staff. Since GST Michigan Works! is governed by a PA7 agreement, it qualifies to operate these services. GSTMW has opted to issue an RFP for these services for 2019-2020 for the Shiawassee and Genesee County offices.
3. Financial Management: an RFP delineates the amount of responsibility a potential bidder has in financial management. This could range from management of staff only services to including management and payment of training expenses, supportive services, office supplies and OJT contracts.
4. Profit: Profit is an allowable cost payable only to commercial organizations. The profit must be separately negotiated from the contract award and cannot be based on a percentage of costs budgeted or expended in the agreement. Profit must be tied to performance and cannot be paid as a guaranteed fixed fee. Profit is only earned when performance outcomes are attained and can only be disbursed when those outcomes are validated. Profit cannot be paid in addition to performance payments or incentive payments. [2 CFR Part 200.323(b); 48 CFR Part 15.404-4]. Some of GSTMW's previous and current contracts include profit.
5. Supervision and Direction: Supervision of contractors can vary from "hands off" as long as performance measures are met and monitoring results are adequate, to direct supervision of staff.
6. Eligibility and Client Files: The MWA can review all potential client's eligibility and maintain the files, or this responsibility can stay with the provider.

### B. Geographic & Volume Considerations

GST Michigan Works! covers six counties. Each county has at least one (1) One-Stop where employment services, WIOA services and other program services are provided. The population covered by GSTMW varies from highly urban areas to extremely rural areas. Because of density and demographic differences, different modes of delivery of services may be employed. The population figures include:

	<u>*Population</u>	<u>%</u>
Genesee County.....	425,790	59%
Huron County.....	33,118	5%
Lapeer County.....	88,319	12%
Sanilac County.....	43,114	6%
Shiawassee County.....	70,648	10%
Tuscola County.....	55,729	8%
TOTAL	<u>716,718</u>	<u>100%</u>

**C. Vision for the One-Stop Centers Under WIOA**

All entities contracted by GSTMW will be an integral part of the One-Stop Centers and may be asked to co-locate and/or provide staffing in the centers. The publicly funded workforce system envisioned by the WIOA is quality-focused, employer-driven, customer-centered and tailored to meet the needs of regional economies. It is designed to increase access to, and opportunities for, the employment, education, training and support services that individuals need to succeed in the labor market, particularly those with barriers to employment. It aligns workforce development, education and economic development programs with regional economic development strategies to meet the needs of local and regional employers, and provide a comprehensive, accessible and high-quality workforce development system. This is accomplished by providing all customers access to high-quality One-Stop Centers that connect them with the full range of services available in their communities, whether they are looking to find jobs, build basic educational or occupational skills, earn a postsecondary certificate or degree, obtain guidance on how to make career choices or are businesses and employers seeking skilled workers.

Under the WIOA, One-Stop Centers and their partners:

- Provide jobseekers with the skills and credentials necessary to secure and advance in employment with family-sustaining wages;
- Provide access and opportunities to all jobseekers, including individuals with barriers to employment including those with disabilities, to prepare for, obtain, retain and advance in high-quality jobs and high-demand careers;
- Enable businesses and employers to easily identify and hire skilled workers and access other supports, including education and training, for their current workforce;
- Participate in rigorous evaluations that support continuous improvement of One-Stop Centers by identifying which strategies work better for different populations; and
- Ensure that high-quality, integrated data adequately inform policy makers, employers and jobseekers.

### **Relationships:**

## **Section V - Instructions for JMG RFP Response**

The Jobs for Michigan's Graduates is implemented in collaboration with WIOA programming, with some, but not all participants, dual enrolled in WIOA. Both the JMG and WIOA youth programming must be implemented.

### **A. Jobs for Michigan's Graduates – Scope of Work**

The Jobs for Michigan's Graduates program is an affiliate of the national Jobs for American's Graduates program. This program follows nationally designed curriculum to both keep students at risk of dropping out of high school engaged through graduation and reengaging those that have already dropped out into a high school completion or GED program. The JMG program's goal is to ensure their students win in education, employment and citizenship by helping youth complete their secondary school requirements and to provide them with the skills they need to continue into employment and/or further education. JMG provides several models of which GSTMW currently runs two – the In-School or Multi-Year model (MY) and the Out-of-School or Dropout Recovery model (OOSY).

#### Multi-Year Model

JMG In-School Specialists work directly in the high schools, running a JMG classroom for elective credit. As such, In-School Specialists must be certified to teach in a high school setting. The JMG MY classroom is designed to use the JAG national curriculum as well as creative and innovative teaching styles to teach the 37 JAG core competencies. Each JMG Specialist will serve up to fifty (50) students who are most at risk of dropping out of high school, selected in conjunction with an advisory board consisting of school staff. In addition to the core competencies, JMG classrooms will also include a student led government (the Career Association), community service projects, career exploration and life skills training. JMG Specialists are expected to be more than just another teacher, but also a coach and mentor to these at-risk youth. This relationship continues outside of the classroom with afterschool and summer activities, as well as a year of follow-up after graduation.

#### Out-of-School Model

JMG Out-of-School Specialists work with youth who have already dropped out of high school, reengage into a high school completion or GED program. Out-of-School Specialists may conduct a walk-in center and/or meet the youth where they are. The OOSY program is not restricted to one GED or high school completion program. While the program has twenty (20) core competencies, the focus is more heavily on mentorship, tutoring and barrier reduction. The goal is to keep the youth engaged in their GED/high school completion program by helping to overcome obstacles that stand in the way of their participation. The OOSY program contains many of the same components as the MY program, including community service, a youth-led government (Professional Association), career exploration and follow up.

#### Program components

- JAG National curriculum;
- Tutoring;
- Career exploration and preparation;
- Postsecondary education exploration and preparation;
- Career Association/Professional Association;
- Community service;
- Employability knowledge;
- Barrier identification and reduction;

- Mentoring;
- Work-based learning (work experiences, internships, job shadowing);
- Leadership and Career Development Conferences;
- Participant tracking through Electronic National Data Management System (e-NDMS); and
- Twelve (12) months follow up.

### Reporting

The JMG program is currently provided through blended funding. As such, it requires the management of multiple budgets, program guidelines and performance metrics. The multiple funding sources all require separate reporting through monthly and annual reports and data entry into multiple systems. All JMG youth are required to be entered and managed on the e-NDMS but may also require entry into OSMIS or other independent tracking databases.

### Program Expansion

The JMG program is expanding state-wide, currently operating in forty-three (43) cities across Michigan. The state JMG team, as well as GSTMW continue to explore expansion and fund development opportunities. The service provider for the JMG program is expected to participate in these efforts by hosting site visits, attending events, fostering community relationships and alerting GSTMW to expansion opportunities.

In order to sustain JMG programming long-term, JMG in-school providers are required to contribute non-GSTMW funding towards program costs. The amount and form of match contribution is negotiable based on demographics, program size and the school district's financial capability. The match contribution may be in the form of money or in-kind services. Cash contributions may come from the school district(s), the contractor or a third-party donor, but does not include grants received in the name of GSTMW (i.e., Youth Solutions/JMG grant, Ruth Mott Foundation grant or other funding received directly by GSTMW). Examples of in-kind services include supplies/materials, talent tour costs, transportation costs, work experience wages, etc. If in-kind services are accepted as part of the match contribution, GSTMW will require documentation for: a) actual cost of service, b) that the service benefited the JMG in-school program, and c) costs were not charged to GSTMW on another grant or program.

Bidders must include in their budget narrative, the proposed amount and sources of match contributions.

### **B. WIOA Youth – Scope of Work Summary**

Occupational skills training for youth program participants may be provided by a training provider (such as a community college or vocational school). In addition, the training provider and training must be listed on the Michigan Talent Connect (MITC). Training not on the MITC must be procured.

### **Work Experience**

Work experiences are planned, structured learning experiences that take place in a workplace for a limited period of time. Work experiences may be paid or unpaid. Work experiences are designed to enable youth to gain exposure to the working world and its requirements. Work experiences should help youth acquire the personal attributes, knowledge and skills needed to obtain a job and advance in employment. The purpose is to provide the youth participant with the opportunities for career exploration and skill development and is not to benefit the employer, although the employer may benefit from the activities performed by the youth. Work experiences may be subsidized or unsubsidized and may include the following elements:

- Instruction in employability skills or generic workplace skills;
- Exposure to various aspects of an industry;
- Progressively more complex tasks;

### **WIOA Supportive Services**

Supportive services assist eligible participants who face specific barriers to securing employment when no other resources are available to address their needs. Supportive services are identified during the intake/assessment process and are entered onto the ISS. The ISS must be updated, through case management activities, and/or during employment/training services activities, to add additional supportive services needs as they are identified. Supportive services are services such as transportation, child care, uniforms and other work attire, work-related tool costs and clothing that is necessary to enable an individual to participate in WIOA activities.

### **WIOA Placement**

The placement component is designed to place job-ready participants into employment.
