

HEAT & FROST INSULATORS AND ALLIED WORKERS

TRADE SUMMARY

Insulation workers install many different types of insulating materials for basically five purposes: to prevent heat transfer, to conserve energy, to retard freezing, to protect personnel from burns and to control fire hazards. Today, insulating materials are used in energy conservation efforts to increase operational efficiency and reduce fuel costs.

WHAT TO ANTICIPATE

Insulators generally work indoors in residential and commercial settings. Mechanical insulators work both indoors and outdoors. They spend most of their workday standing, bending, or kneeling in confined spaces.

WRITTEN EXAM	X
RELIABLE TRANSPORTATION	X
HIGH SCHOOL DIPLOMA/GED	X
PASS A DRUG TEST	X
18+ YEARS	X
VALID DRIVER'S LICENSE	X

REQUIRED DOCUMENTS

- Birth Certificate
- Social Security Card
- Valid Driver's License or Valid State Identification
- DD214 (if applicable)

LENGTH OF PROGRAM:

4 YEARS
